Background and goals

About COST Action TD1105 *EuNetAir*

COST Action TD 1105 *EuNetAir*, a Concerted Action on *New Sensing Technologies for Air-Pollution Control and Environmental Sustainability*, is a running Networking funded in the framework *European Cooperation in the field of Scientific and Technical Research (COST)* during 2012-2016.

The main objective of the Concerted Action is to develop new sensing technologies for Air Quality Control at integrated and multidisciplinary scale by coordinated research on nanomaterials, sensor-systems, air-quality modelling and standardised methods for supporting environmental sustainability with a special focus on Small and Medium Enterprises.

This international Networking, coordinated by ENEA (Italy), includes over 80 big institutions from 28 COST Countries (EU-zone: *Austria, Belgium, Bulgaria, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, The Former Yugoslav Republic of Macedonia, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom*) and 7 International Partners Countries (extra-Europe: *Australia, Canada, China, Morocco, Russia, Ukraine, USA*) to create a S&T critical mass in the environmental issues.

About the *Third Scientific Meeting at Bahcesehir University, Istanbul, 3-5 December 2014*

The 6th MC Meeting jointly with WG1-4 Meeting will be held at Bahcesehir University, organized by GEBZE (Action MC partner) and Bahcesehir University, tentatively organized with a Plenary Session, parallel Inter-WGs Sessions including a General Assembly of the WGs and the four Special Interest Groups (SIGs), and finally, a MC Meeting. The Plenary Session will focus on ***New Sensing Technologies for Indoor Air-Pollution Monitoring*** in a multidisciplinary approach including International Experts and Coordinators of the running FP7 and H2020 research projects to consolidate an **EU Projects Cluster on Indoor Environment Quality and Applications**, with a possible patronage and sponsorship of the EC DG Research and Innovation.

Participation from research, academy, university, industry, environmental agencies, international stakeholders, policy-makers and institutional managers is widely planned with large outreach and dissemination activities, at high expected impact (28 Parties involved in the Action on July 2014).

Fruitful discussions between Action TD1105 participants, international experts, speakers and international institutional organizations delegates (e.g., WHO Europe, JRC, DG RTD) are strongly expected. At the open ***Third Scientific Meeting*** of the COST Action TD1105 *EuNetAir*, a strong impact on focusing of the critical indoor environmental issues would be mutual benefit.
